- 1. An airfield is located on the northern edge of Kamenica and Cirochou (M49-12, E20-58) along the northern side of the railroad line from Humanne (M48-56, E21-55) to Smina (M48-59, E22-09). The eastern boundary is formed by a field track leading from Kamienka (M48-55, E22-00) to Rovne (M48-35, E20-03). The airfield is rectangular in shape and about 1000 m. long in a southwest-northeast direction and 700 m. wide in a northwest-southeast direction. The surface is flat and grassy. Red and white markers mark the boundaries of the airfield.
- 2. In the southeast corner of the airfield are two wooden buts which serve as billets; each but is approximately 20 x 8 m. To the west of the buts is a damaged reinforced concrete building on which a many with a wind cone is mounted.
- 3. North of the billets, four twin-engine aircraft of a Dakota type are normally parked.
- 4. In May 1952 about 20 aircraft were seen landing and taking off at this airfield during army maneuvers.
- 5. In May 1954 about 50 troops wearing red berets were seen at the local railroad station unloading unspecified material from a railway car. The material was believed to have been destined for the airfield.
- 6. Electric power is supplied to the airfield by a cable running alongside the southern side of the railroad track.
- 7. Nothing is known of the existence or location of the fuel storage.
